Clerk Nelson informed the visitors that the plans are still under preparation with the layout of the electrical works for street lighting to be decided. The visitors offered objection to the sidewalk on the draft plan being located approximately 10' from the back of the curb. They indicated their beliefs that all other sidewalks in the City are located approximately 5' from the back of the curb. At the end of the discussion, the Council agreed that they would keep them posted on conditions of the street improvement plan as it progressed.

C. RECREATION FIELD: Amanda Kohlmeyer, who had requested to speak to the Council about the possibility of beginning a woman's softball traveling league, was not present at the meeting.

D. ADMINISTRATIVE COORDINATOR TOPICS:

1. ZONING APPLICATION – RUSSERT: Judy Russert, 703 South Winnebago Street, described her proposal to replace an old garage with a new 24' x 30' unattached garage, located approximately 7' from the north (side) property line, requiring a 3' setback variance. All members voted in favor and the motion was declared carried.
2. WATER TOWER CLEANING PROJECT: Mr. Gerardy reported that the cleaning of the water towers and spot repair had been completed with the contractor charging the proposal price of \$3,200 per tower for a total of \$6,400 for the cleaning work and \$1,800 for painting touchup, and the like. The original proposal had been for \$1,800 for each of the towers for touchup, but because so little work was required, the contractor charged \$1,800 total for the touchup done on both towers.

3. **SHADE TREE PROGRAM:** Mr. Gerardy requested whether or not the Council wished to conduct the Shade Tree Program which had been postponed for 2 or 3 years because of a lack of funds. He reported that many trees have been dying and have been removed in the City and it would be beneficial to re-establish the numbers of healthy trees. Following discussion, a motion was made by Member Klug, seconded by Mayor Morey, to conduct a Shade Tree Program for the Spring of 2009 and charge \$10 per tree to the residents. F. **CLOTHING ALLOWANCE ISSUE:** DeWayne Schroeder, President of the Caledonia Employee Association, addressed the Council concerning action taken at the past meeting for clarification of a clothing allowance issue for Mike Gerardy and Myron Kinneberg. Since the clothing allowance is \$60 for inside personnel and \$125 for outside personnel, the issue came up of those two employees who spend a significant amount of time working outside. The Council solution was to grant  $\frac{1}{2}$  of the inside amount plus  $\frac{1}{2}$  of the outside amount for a calculated clothing allowance of \$92.50. Mr. Schroeder, who said he was there on his own behalf and not acting as President of the Association, said the issue should not have been considered at all because the Labor Agreement is finished and should stand for the calendar years of 2008 through 2010. If it were to be addressed, it should have rightfully been submitted to the Association first, then to the City Council. He said he felt the Council action was offensive to the Labor Agreement. Clerk Nelson said when the issue came up, his automatic reaction was to take it to the Council for consider, failing to remember to pass it by the Association before hand. Council Members Vick and Klug commented that they thought it may have already been presented to the Association and was then presented to the Council for final decision. Following discussion, a motion was made by Member Vick, seconded by Member Klug, to rescind the motion to clarify the clothing allowance for a calculated rate of \$92.50 for Mike Gerardy and Myron Kinneberg. Members voting in favor: Vick, Klug and Standish. Opposed: Morey. Abstaining: Perry. The motion was declared carried.

G. **ELECTRIC DEPARTMENT EQUIPMENT:** On behalf of the Electric Department staff, Clerk Nelson reviewed a request to purchase a monitor which has the ability to read a variety of information on performance of electric lines. The City had recently hired Tri-County Electric Cooperative to check lines with its instrument at a cost of \$1,200 for one day's labor. The desired machine costs \$7,000. Following discussion, the Council agreed by general consensus to have the monitor placed in the 2009 budget requisitions for the electric department.

## OLD BUSINESS

A. **EXPENSE REIMBURSEMENT:** Clerk Nelson reminded the Council that a couple meetings ago, a request had been submitted by Matt Blocker for the Council to pay a \$25 renewal fee for his re-certification as a Journey Lineman. At the time Nelson said his recommendation was to have Mr. Blocker pay the fee personally while the City checked to determine whether or not such renewal fees were paid for other personnel in other career fields. Now having found that several personnel have renewal fees of their licenses or certifications paid by the City, Nelson recommended that the City reimburse Mr. Blocker his \$25. Following discussion, a motion was made by Member Klug, seconded by Member Standish, to reimburse Matt Blocker \$25 for the renewal of his Journey Lineman Certification. #### SPECIAL MEETING OF THE CITY COUNCIL CITY OF CALEDONIA, MINNESOTA Wednesday, September 24, 2008

CALL TO ORDER: Following due call and notice thereof, Mayor Morey called the meeting to order at 7:00 p.m. in the Council Room, City Hall.

ROLL CALL: Members present: Mayor Michael J. Morey; Council Members: Randi Vick, Gary Klug, Robert Standish and Peggy Perry. Members absent: None. Consultants and City staff present: Stephanie Mann, Robert L. Nelson, Chuck Gavin, Walter MaComber Sr., Matt Hoscheit, Mike Meiners, Nathan Speltz, Kevin Schmidt, Kevin Jacobson, Matt Klug, Dan Schwartz, Walter MaCromber Jr., Adam Peterson, Dan Stemper, Todd Lemke, Tom Esch, Doug Ely, and Zach Gengler. Visitors present: Greg Myhre, Rosine MaComber, Glen Meiners, Terry Botcher, Bob Burns and Glen St. Mary.

#### BUSINESS ITEM

A. FIRE DEPARTMENT POLICIES AND PRACTICES, PARTICULARLY PURCHASING: Mayor Morey explained the reason for the meeting was the purchasing practices of the fire department in that they often fail to receive advanced permission from the City Council before making purchases. Glen Meiners, Mayville Town Board Member, asked to review a little history of the fire department before the group. Mr. Meiners said the cooperation between the Rural Fire District and City Fire Department began in 1947 with the formation of the Rural Fire District. The Rural Fire District purchased its own pumper. Years later the City

needed to purchase a new pumper and at that time the two governmental entities decided to go 50/50 on all purchases. Had that agreement not been made the City would have had to purchase its own new pumper. Stephanie Mann, City Accountant, reviewed the budget and actual expenditures and revenues for 2008 to date and extended the calculations to December 31 for expenditures such as wages and insurance which are based upon past years history, concluding with an estimated deficit of approximately \$7,600. Again, this calculation does not allow for any expenses of any type from this date forward through the end of the year other than wages, insurance, and a few known expenses. There was extensive discussion over the Councils consideration of the \$84.00 eye glass expense for a firefighter during the meeting held September 8, 2008. Chief Gavin asserted that he felt as though he had no discretionary authority with regard to purchases of any kind and was now hesitant to order anything for the fire department. There were also complaints over the Councils failure to immediately accept an offer of a \$1,100 portable pump which was to be contributed to the City by the fire relief association gambling account and the firefighters support group foundation. The Council asserted its authority for making decisions on purchases and to direct personnel, meaning that even items to be donated to the City may be subject to scrutiny. The original statement of intent for the portable pump was to pump water out of basements in the kinds of severe rainfalls happening in the past year in this area. Chief Gavin said he had items needing to be purchased at the moment such as a \$420 suction hose and \$5,000 worth of inspection which should be performed on the various fire vehicles. There was very lengthy discussion back and forth about the needs and wants of the fire department and the rights of authority of the City Council. Following discussion, Chief Gavin asked if the City Council were willing to accept the donation of the portable pump at this time, explaining that it had a variety of uses and a value of \$1,100. Following discussion, a motion was made by Mayor Morey, seconded by Member Standish, to accept the donation of a \$1,100 portable pump. All members voted in favor and the motion was declared carried. Further, a motion was made by Mayor Morey, seconded by Member Standish, to clarify for the Fire Chief that the purchasing rights of the Fire Department are the same as for other City departments, meaning that up to a \$1,000 may be spent under normal conditions without advanced authorization to accomplish safety improvements, implement OSHA recommendations, perform maintenance and repair of equipment and replacements of small equipments. All members voted in favor and the motion was declared carried. Further clarification was made that this does not mean the City Council shall never question the Fire Department on items of purchase or ask to be advised of necessary, known expenditures even though they may be routine for future spending.

B. MUTUAL AID RATE: Chief Gavin said the Fire Chiefs had gotten together and agreed upon a mutual aid rate which generally involves charging for the firefighters time, most of which City's charge \$10 per hour although Caledonia charges \$12 per hour and reimbursement of actual fuel expense.

ADJOURNMENT: There being no further business before the Council, a motion to adjourn was made by Mayor Morey and seconded by Member Klug. All members voted in favor, the motion was declared carried and the meeting then adjourned at 9:01 p.m.
